

GS-Project – your experienced partner in foreign trade

GS Project – Gerd Steinhörster Project Management is located in the lovely city of Detmold in north western Germany.

The owner, Gerd Steinhörster, is experienced for more than 10 years in the field of Chinese – German trading.

He has numerous, reliable – in everyday work approved – contacts to trade partners and producers in Germany and China. Whether you are looking for food or non-food articles, with his great number of contacts to reliable suppliers which will deliver you high quality original products, he is the one you should talk to.

He can offer you complete service, due to his competent partners in logistics and customs matters, he can handle everything for you, even the delivery right to your door.

We are successfully working for our Chinese and German customers in different business areas, for example:

- Delivery of food (for example baby or pet nutrition) and non-food articles, f.e. household and wellness products, to China
- Production of LED lighting due to customer orders
- Development and production of industrial ceramic parts for different customers
- Numerous special designs, amongst others in the metallurgical sector
- Agency and installation of distribution channels for German Food/Non-Food-products by means of Chinese internet platforms due to customer orders
- Agency and marketing of Chinese Food/Non-Food-products on European markets including official admissions
- Clearing and realisation of the logistics in co-operation with specialised forwarding agencies.

We would like to discuss your ideas and the new possibilities and chances for your business in the extraordinary dynamic Chinese market.
